

Assignment 1

The screenshot shows the AWS IAM console 'Add user' page. A success message indicates that three users (UserA, UserB, and UserC) have been created. Below the message is a table with columns for User, Password, and Email login instructions. Each user's password is masked with asterisks and has a 'Show' link. Each user also has a 'Send email' link. A 'Download .csv' button is located above the table. The bottom of the screenshot shows the Windows taskbar and the AWS footer with copyright information and links to Privacy Policy, Terms of Use, and Cookie preferences.

Success

You successfully created the users shown below. You can view and download user security credentials. You can also email users instructions for signing in to the AWS Management Console. This is the last time these credentials will be available to download. However, you can create new credentials at any time.

Users with AWS Management Console access can sign-in at: <https://454796835535.signin.aws.amazon.com/console>

[Download .csv](#)

	User	Password	Email login instructions
▶ ✓	UserA	***** Show	Send email
▶ ✓	UserB	***** Show	Send email
▶ ✓	UserC	***** Show	Send email
